Subject: Supplemental Image Exhibit – Reference: JPSO Contact TPHS-DTDIHEY Case#SO260342

To: <info@lla.la.gov>

Dear Investigators,

Please accept the attached image file as an immediate supplemental exhibit to the voicemail notification I submitted earlier this evening, August 5, 2026.

The attached image is an unedited screenshot captured by my active residential security camera system looking out from the front porch during the exact timeframe of the JPSO deployment. As documented in the image, a marked Jackson Parish Sheriff's Office SUV and an accompanying white unit were stationed directly on the street at my property line.

This visual evidence is being provided to ensure the file accurately reflects the exact physical scale and proximity of the agency's presence outside my residence immediately prior to Chief Investigator Johnny Horton's 7:20 PM phone call.

As stated previously, I am maintaining an absolute wall of silence and will not engage informally with the agency regarding my recording infrastructure.

Respectfully submitted,

Tommy McDougald

TPHS-DTDIHEY Case#SO260342
